

BOHS Endorsed Course

Asbestos: Survey Specification and Understanding Reports

**** EXCLUSIVE to Housing H&S Compliance UK Ltd ****

This one day course is truly bespoke to organisations operating in the social housing sector – the theoretic element of the training focuses on providing answers to the following questions:

1. Why do we have surveys?
2. How do we choose surveyors?
3. What do we need from the survey report?
4. How can we avoid issues during / after the survey?
5. Planning of surveys
6. Some common issues that are encountered
7. How do we use the reports?

Delegates will find out the reasons for asbestos surveys/inspections and understand the legislative requirements in accordance with the Control of Asbestos Regulations 2012.

This course has been quality assured and is endorsed by BOHS; the only such course available.

Following the theory, the group will examine and critique a number of their own organisation's surveys; paying specific attention to the survey scope, contents including sample frequencies, reporting detail and clarity of information provided.

This enables the delegates to put into practice what they have learned.

Course Objectives

By the end of the session, delegates will:

- Understand the reasons for asbestos surveys
- Appreciate the importance of how planning surveys works
- Understand the common pitfalls and how they can be avoided
- Know how to read and interpret the data in a report and identify any failings
- Identify what happens after the report is complete

ALL of our courses can be run in-house at your organisation. To find out more please contact us by emailing us at: training@housingcompliance.co.uk or by calling Vicki on 07974 578103.
